HOW PATIENT HOME DELIVERY WORKS

1

Physician writes prescription for product or equipment

2

Patient contacts HME provider

3

Provider places order through A2A MedNet client portal TM 'Patient Suite'

4

We fill and ship order leveraging over 40 nationwide distribution centers

5

Whether Patient Specific Bulk or Individual The orders and products arrive labeled for the patient to the place of residence whether private, residential facility, or clinical environment.

SAVINGS TO HELP IMPROVE YOUR REVENUE

Managing cashflow can be a challenge for any HME Owner, Healthcare Association or Independent Physician, from making payroll and purchasing inventory to combating shrinking reimbursements and increasing regulations.

Help support your business with Patient Home Delivery and patient Specific Bulk. We can save you time and money by doing the heavy lifting for you, allowing you to save on costs associated with packing and shipping product or keeping unnecessary inventory in stock.

Did you know...

according to a recent study by The VGM Group, the average HME total delivery cost is

\$104.38.

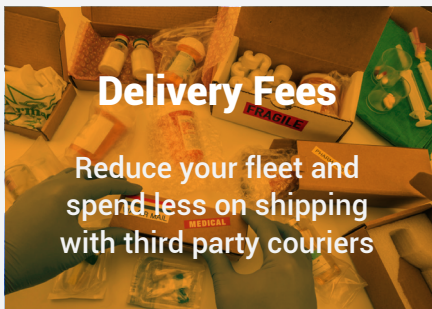

Is your business paying too much?

CALCULATE HOW MUCH YOU CAN SAVE

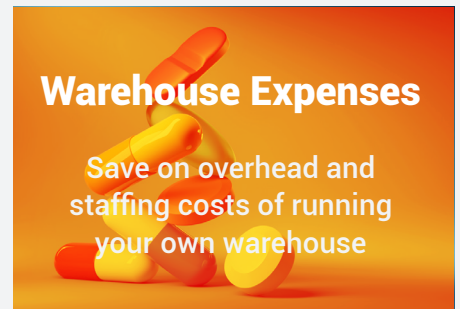

Get real-time data on how much money your business could be saving by using our Patient Home Delivery Savings Calculator. Meet with your McKesson Account Manager to walk through the tool and see first-hand how you can lower costs from:

Delivery Fees
Reduce your fleet and spend less on shipping with third party couriers

Inventory
Greater product inventory available online for less stress on your business

Warehouse Expenses
Save on overhead and staffing costs of running your own warehouse
